VINHA

Kleurenkaart voor exterieur Dekkend

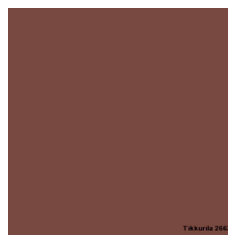

Vinha behoort tot de adel van houtafwerkingen, is watergedragen en extreem duurzaam. Vinha is geschikt voor eerder geverfde of gebeitste oppervlakken en voor nieuwe oppervlakken. De prachtige semi-matte kleur heeft voldoende dekkingskracht om donkere kleuren van eerder behandelde oppervlakken te veranderen in een lichtere tint. Het extreem duurzame oppervlak van Vinha-kleuren vormt een waterafstotend houtbeschermend oppervlak dat de structuur van het hout mooi laat zien.
